**SUPPLEMENT TO REISSUE DECLARATION BY THE ASSIGNEE**

Sir:

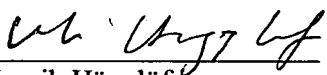

In supplement to the Reissue Declaration by the Assignee submitted in this reissue,  
please further consider the following:

1. I verily believe the original patent to be wholly or partly inoperative or invalid, by virtue of claiming more or less than the patentee had the right to claim in the patent.
2. More specifically, that an error arose due to the fact that, subsequent to the issuance of U.S. Patent No. 5,971,673, Applicants were made aware of German patent publication no. 94340 and other prior art, resulting in at least one of the claims in U.S. Patent No. 5, 971, 673 being broader than Applicants had the right to claim.
3. Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.

4. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful and false statements may jeopardize the validity of the application, any patent issued thereon, or any patent to which this declaration is directed

Respectfully submitted,

Date: 26/7/2007
